

Walsh Construction Ltd

Environment Statement of Intent

In undertaking its business, Walsh Construction Ltd recognises that without appropriate procedures and control measures, it has the potential to cause damage to the environment, its flora and fauna and cause disturbance to neighbouring communities and wildlife habitat.

Walsh Construction Ltd is therefore committed to protection of the environment by means of awareness, prevention, planning, monitoring, control, training and recycling.

It is the Company's policy to ensure all environment procedures are followed and that measures are in place to prevent pollution (chemical, atmospheric, noise, and air-borne) provide correct waste disposal, timber procurement, recycling, and emergency contingency planning.

Due regard is given to the provisions and compliance of:

- The Environmental Protection Act 1990
- The Controlled Waste (England & Wales) Regulations 2012
- Site Waste Management Plan Regulations 2008
- Carbon Reduction Commitment 2009
- Pollution Prevention Control Act 1999
- Environmental Noise Regulations 2010
- Environmental Permitting Regulations 2010
- All other relevant legislation and Approved Codes of Practices.

The duties and responsibilities for environmental matters and procedures are contained within the Company Environmental Policy and Environmental Procedures & Sustainability Plan. These policies are reviewed annually and all employees must abide by the contents. Full policy documents are available upon request.

Any employee disregarding environmental precautions or found to be careless, will be subject of disciplinary procedures.

The implementation of Environmental Policy and Procedures is the direct responsibility of the Managing Director. All other employees of the Company have a duty to assist him in this undertaking.
